

Platform Scale PCE-PB Series

Platform scale for up to 150 kg / bidirectional USB-Interface / PEAK-Hold function / counting function / battery or mains supply / USB-Cable included in the delivery content

The Platform Scale PCE-PB Series is an affordable scale for a weighing range of up to 60 or up to 150 kg (depending on the model of the scale). The Platform Scale PCE-PB Series is perfectly suited for occasional use. Due to the display-unit which is located on a 1000 mm long coiled cord, the Platform Scale PCE-PB Series can be put on a table as well as on the floor. Since there are a wall bracket as well as a stand in the delivery content, the Platform Scale PCE-PB Series can be used versatitely. Another part of the delivery content is a 230 V power adapter. Nevertheless, this platform scale can be operated with standard batteries too. Furthermore, the Platform Scale PCE-PB Series provides an automatic shutdown function and is able to weigh objects which are bigger than the platform size of 300 x 300 mm. Further interesting functions of the platform scale are the piece-counting function, the PEAK Hold function, the filling level control, different measuring units (e.g. kg, lb, N, g) and LED backlight. In case that you should have more questions concerning the Platform Scale PCE-PB Series, please read the following technical data, use our [contact form](#) or call us: +44 (0) 2380 98703 0. Our technicians and engineers will gladly advise you regarding this platform scale or any other product in the field of [Control Systems](#), [Laboratory Equipment](#), [Measuring Instruments](#) or [Scales and Balances](#) of [PCE Instruments Ltd.](#)

- Display with 20 mm digits
- USB-Interface
- wall bracket for display (integrated)
- 4 buttons for easy operation
- battery or mains supply
- automatic shutdown function
- overload display
- display-unit on coiled cord
- stainless-steel weighing platform
- optional calibration certificate
